

NATHANAEL RICHARDSON

ANALYST ENGINEER & BI ENGINEER

📞 970- 584-4345 ✉ nathanaelrv91@gmail.com 📍 Denver, CO 80631

Professional Summary

Driven and results-focused data scientist and model builder with expertise in Python, SQL, and data visualization tools. Skilled in developing advanced analytics solutions that embed AI Agents & MLOps with financial/consumer models for custom clients. Holds a strong foundation in data interpretation and problem-solving. Seeking a Data Scientist, Model Builder & AI Engineer role to deploy unique analytical skills and technical expertise in driving business automation & delivery initiatives.

Skills

- Python and Pydantic
- Building Data Warehouses
- Streamlit applications with NLP
- AWS S3 storage
- Databricks platform
- Hyperparameter tuning techniques
- Options trading strategies
- Power BI and Microsoft Fabric
- Data visualization with AI tools
- Keras framework
- SQL for data science (Snowflake, Cortex, Snowpark)
- Machine learning regression and classification
- Scikit-learn for ML modeling (unsupervised and supervised)
- Ollama Gemini and OpenAI LLMs with LangChain and Pydantic

Experience

Jan 2023 - Present

BI DEVELOPER & DATA SCIENTIST

Flywheel Digital Commerce, Denver, CO

- **Created Service Custom Dashboarding:** Data Studio, Big Query, DataBricks, SQL. Contract-based work.
- **Built DBT Core Projects with AI Tooling:** External Ad Hoc custom services with Snowflake DB (Cortex Tasks), DBT Core, Langchain & Ollama/OpenAI tool calling.
- **Proprietor of Market & Retailer Forecasting Models:** A global data model that uses log transformations & recursion. Python UDFs & UDTFs.

Education

Expected graduation **Feb 2027**

GENERATIVE AI AND IN AI ENGINEERING CANDIDATE

SimpliLearn,
Online

- Applied AI Generative Specialization
- Data Science & AI Integrations
- AI-Driven Project Planning & Workflow Optimization

Sep 2026

DSA 03 CERTIFICATION IN DATA SCIENCE WITH ML & CORTEX AI

Snowflake DSA Advanced Scientist

- **Developed Subcategory Models:** Over 800 online retailers & multi-channel customizations with regression, log transformations, AI research agents & multi-layered testing.

Jan 2013
BACHELOR OF SCIENCE IN APPLIED STATISTICS

University of Northern Colorado,
 CO

Jan 2022 - Dec 2022

DATA SCIENTIST STUDENT

Springboard, Evans, CO

- Dedicated 500+ Hours of mastery of data analysis with data science material and case study presentations. Gained access to data sets and case studies with a mentor to wrangle, extract, filter, and summarize large data sets.

Jan 2018 - Dec 2022

GROCERY SUPERVISOR

Sam's Club, Evans, CO

- Participated in P&L Analysis with month-to-month reporting (Top performing sales club in 13 club market & 2nd in a 73 club US region).

Jan 2013 - Dec 2018

KITCHEN MANAGER

Golden Corral Corp., Greeley, CO

- Managed food cost & labor cost of a business generating 1.5-2.5M\$ of annual revenue.
- Achieved 8-12% seg. operating income profitability from 2015-2018. Inventory Manager of the entire store.

Projects

- **GitHub Project Repository:** [Project Repository with DBT Snowflake](#)
- **NBA Machine Learning Database:** Power BI, Snowflake, Python (Pandas, Skicit-Learn & ML Models), NBA REST APIs & Custom Queries with DBT Project to drive NLP Streamlit Apps. Fully functional semantic layer in Snowflake internal stage for Cortex: COMPLETE, SENTIMENT, SUMMARY & Time-Series Forecasting. NLP App for native language data exploration.
- **Amazon & Walmart Custom Analytics Pipelines:** Embedded AI Pipeline with DBT core framework. Managed the ETL process in full for Amazon, Walmart & Instacart dashboard reporting with incremental configurations. Python UDFs, feature engineering & semantic YAML for AI Analytics. Report Optimizations with Power Query, M Query & Clustering.
- **Retailer Subcategory Predictive Models:** 7-year forecasting model with Pycharm & Snowpark Notebooks with over 900 retailers deployed to SaaS and dynamic dashboards. Integrated AI with custom Snowflake Cortex AI LLMs and agent tooling. DataBricks iceberg external tables & external functions.
- **Global Market Data Model:** Composed a highly comprehensive retail forecast model that uses log transformations & recursion to provide a multi-category perspective of the entire economy (offline vs online) with 11 distinct retail categories and over 20 model features from custom feature engineering.
